Create an EasyChair Account: Step 1

To use EasyChair, one should first create an account. The procedure for creating an account is the following.

1. You should type the text that you see in the image below and click on "Continue".
 2. If you type the text correctly, you will be asked to fill out a simple form with your personal information.
 3. After you filled out the form, EasyChair will send you an email with a link that you can use to complete the account creation.

3. Check 'I'm not a robot'. An additional question or test could be asked (e.g. to mark all the pieces on which a traffic sign is partially shown, as the picture above shows). Click on 'verify' and continue.
4. Fill in your first name, last name and twice your e-mail address. Do not use your own, personal e-mail address, but your **official e-mail address of your educational institution**. Thereafter, click on 'Continue'.

Create an EasyChair Account: Step 2

Please fill out the following form. The required fields are marked by (*)

Note that **the most common reason for failing to create an account is an incorrect email address** so please type your email address correctly.

First name* (*):	<input type="text"/>
Last name (*):	<input type="text"/>
Email address (*):	<input type="text"/>
Retype email address (*):	<input type="text"/>
<input type="button" value="Continue"/>	

† Note: leave first name blank if you do not have one. If you are not sure how to divide your name into the first and last name, [read the Help article about names.](#)

Account Application Received

We received your application. A mail with further instructions has been sent to the email address [REDACTED]@gmail.com.

If You Do not Receive the Instructions

If you do not receive our mail with instruction on how to create an account, please read the following information. Our mail server normally sends all mail within a few seconds. The following is an incomplete list of possible reasons for the problem.

Incorrectly typed email address
This is still the most likely cause of delays.

Slow mail processing
Some mail servers process mail for a long time. For example, your mail server may spend a lot of time checking incoming mail for spam.

"Reply-me" mail protection.
Some mailers, when receiving a mail from an unknown sender, ask the sender to send a mail with specific content to ensure that it has been sent by a human. Account-related emails in EasyChair are sent by a computer program, so if your email address uses such a protection, you will never get our mail. If you have such a protection and it is configurable, configure it to accept mail from the domain easychair.org.

Mail box problems and quotas
Some mail sent by EasyChair bounces back because the mail box of the receiver is over quota.

Anti-spam filters
It is possible that your spam filters will classify our mail as spam. Please check your spam mail boxes.

General connection problems
There might be general connection problems, for example your mail server may be unreachable for a long time.

Unfortunately, we have no resources to cope with all possible kinds of mail server (mis)behavior. If you believe you have a problem related to your mail server and want to solve it quickly, try to get and use an email address from one of major mail hosts, such as a Google Mail, Yahoo Mail, or Hotmail. You will be able to change your email address in EasyChair or have multiple email addresses associated with your account later.

You can repeat your application at any time. Another email will be sent to you.

- You should have received an e-mail as is shown below. Click on the link in the e-mail.

 **EasyChair** <noreply@easychair.org>
to [redacted]

Dear [redacted],

We received a request to create an EasyChair account for you. To create an EasyChair account, please click this link:
